## JOKE OF THE DAY:

Max and his wife Lola received a letter from their daughter who had gone to study modern biochemistry overseas. She wrote: my beloved parents, I miss you so much and it breaks my heart to think that by the time I get back, you will be old. Therefore, I am enclosing a bottle of red potion that I have invented. It will make you five years younger and so when I return, you will be the same age as I left you. Please take only a drop. Goodbye I love you.

They opened the envelope and found the bottle with the red potion. Max looked at his wife and said you go first – Lola took a drop and when she did, indeed, she turned five years younger, Max immediately did the same thing.

Years later the daughter returns home to find her mother, she is younger and happier, and she is carrying a baby on her back. She tells her daughter how the potion worked and how it has made her look younger. The daughter is happy and asks about her father.

Your father? Hmm, you know how men don't listen! He drank the whole bottle. What? Where is he?

Lola replied, "Who do you think is on my back?"
